

European Heat Treater Adds Thorsten Schild as Business Development Manager

"Expanite, the Danish specialist in heat treatment and surface hardening of stainless steel and titanium, is thrilled to announce the addition of Thorsten Schild as Business Development Manager.

With 25 + years expertise within the field, the appointment of Thorsten Schild will further strengthen Expanite's commercial and technical service, and thereby support the companies ambitious growth strategy.

Prior to joining Expanite, Thorsten Schild worked for Bodycote's S3P division as group sales director, and he was one of co-founders of BorTec-SMT. All-in-all, Thorsten Schild can in many ways be regarded as one the most experienced people within sales and marketing of stainless steel surface hardening. Over more than 25 years, he has assisted countless customers across many industries globally on finding solutions for wear and galling on stainless steel.

About Expanite: Expanite is a Danish company specializing in heat treatment and surface hardening of stainless steel and titanium. Expanite has established itself as a pioneer and trusted partner in the industry. The sustainable and patented surface hardening processes improves galling, wear and corrosion resistance on stainless steel and titanium parts in a wide range of applications and industries. The company has its head office in Hillerød near Copenhagen and service centers and licensees in the USA, Germany, Korea, and China.
